

SCIENCE OF FITNESS

Scientifically designed gym equipment

Innovative design, durable machines and biomechanically correct

HILTON[®]
— FITNESS SYSTEMS

www.hiltonfitness.com
hilton_fitness_systems

About Hilton Fitness System

In 1991, we launched **HILTON FITNESS SYSTEMS** and began manufacturing quality fitness equipment. In the ensuing 3 decade, HILTON has reached the pinnacle of the industry as one of the largest, most respected & most time-tested fitness equipment manufacturer in India. Our obsession for quality, an eye for consumer insights and innovative ideology has helped us to surpass the industry standards and brand value.

We pride ourselves to be the best in this part of the world; our machines are designed by engineers who know the human body. A great design always reckons the user "first and foremost". Versatile and easy-to-use, our products embody superior biomechanics, premium components, 'grace and the simplicity of design'. Our range of products extends to Home range of Strength & Cardio, Commercial Strength & Cardio, Steam & Sauna, Stretch & Flexibility equipment, Recreation, Sports equipment, Gym Mats, CrossFit accessories and other fitness gear.

Our Mission: "Continue to be the standard of excellence in the fitness industry"

Meet the **team**.

Leadership Impression

Our Founder & chairman Mr. Leslie John Peter has been leading various organizations from 1991. He is an athlete, an aficionado in the field of fitness and patron of various sports. Currently he is the Vice President of the Indian Bodybuilders Federation, International Judge with the WORLD BODYBUILDING & PHYSIQUE SPORTS FEDERATION and Chairman of the selection committee of India (IBBF). He also served as President of the Bodybuilding Association of Kerala from 2005 to 2018

SERVICE & SPARES

IT TAKES TIME & EXPERIENCE TO GET SOME THINGS RIGHT

We at HILTON have been servicing, refurbishing, and maintaining gym equipment for more than 3 decades. We've learned a lot of lessons along the way. We at any point hold a large inventory of spares, and our engineers specialize in chip level service to custom made spares for out dated equipment. We've worked incredibly hard to continually improve the way we do things, constantly reviewing our systems and procedures, finding ways to do things better. To get things right for you.
